DIV. OF OIL, GAS & MINING

Subject: Revised Boundary for Kennecott Utah Copper Corporation's Division of Oil, Gas and Mining Permit No. M/035/002 with Township, Range and Section

Dear Mr. Haddock:

Attached with this letter is a copy of the revised Division of Oil, Gas and Mining (DOGM) permit boundary for Kennecott Utah Copper Corporation's (KUCC) Bingham Canyon Mine (M/035/002) with township, range and sections added for clarity.

The permit boundary has been revised to reflect the release of 10 sections of land granted by the DOGM in a letter received on August 2, 2004. These sections include: 7, 17, 18, 19 T3S R1W and 13, 14, 15, 24, 25 and 28 T3S R2W. However, within the released sections, there are some areas that will remain part of permit M/035/002 until reclamation and/or soil removal activities are completed:

- 217 acres covering the South Jordan Evaporation Pond soil removal area (west ½ of section 18 and the northwest ¼ of section 19, T3S, R1W and the northeast ¼ of section 13, T3S, R2W)
- The Bastian Sink soil removal area (south ½ of section 15, T3S, R2W)
- The haul road used for soil removal
- Well sites and pipeline corridor being used for sulfate extraction.

The revised DOGM permit boundary (M/035/002), including areas to remain as part of the permit, are outlined in red on the attached drawing, No. 454-T-0122. KUCC will

notify the DOGM once soil removal activities have been completed to gain release of the remaining areas within sections 13, 15, 18, and 19.

Please contact me at 569-7120 or Vicky Peacey at 569-7118 if you have any questions.

Sincerely,

Paula Doughty
Director, Environmental Affairs
